

New for NAM

Uniflair ceiling mounted air cooled split units

Schneider Electric is pleased to announce our latest addition to the Uniflair Room Cooling portfolio for NAM. The Ceiling Mount 6 and 12 KW cooling units are ideal for smaller cooling requirements needed in the Grey space of Data Center Designs. It also helps address applications requirements for Edge Cooling as well. These Air Cooled Split Direct Expansion units are cooling only with an optional Direct Air Economization kit that helps with Efficiency and Economizer requirements.

Function and availability

- EcoStruxure™ Ready
- 4.3" Color Touch Screen Display
- MODBUS and BACNET protocol compatible
- Group Control Functionality
- Straight Cooling Only
- Refrigerant Isolation valves at both Evap and Condensing sections
- Optional Direct Air Economization Kit
- Stocked in the Distribution (2) WK lead time
